EDUCATION

Al Hussein Technical University (HTU):   **Amman, Jordan, March 2022 – March 2026**
Bachelor's degree in computer science: (Very Good – 3.46/4)

PROFESSIONAL EXPERIENCE

Pio-Tech: **Amman, Jordan, July 2025 – March 2026**
Apprenticeship (Full-Stack Web developer): .NET, MVC, Code/DB first, Razor, EF Core, DB context, Config, Publishing, OOP.

SKILLS & KNOWLEDGE

Soft skills:

Problem-Solving, Teamwork, Time Management, Critical Thinking, Negotiation, Self-Learning, Communication, Presentation, Sales.

Technical skills:

Languages: C#, Python, Java, Java-Script, C, BASH, DAX, SQL, HTML, CSS.
Back-end: .NET, Node & Express JS, Flask.
Front-end: React, Vite, Bootstrap, Razor pages.
AI & Data analysis: AI models (Classification, Regression, Clustering), Power BI, google colab, Microsoft azure, Cleaning, Visualizing.
Tools & OS: VS code, Visual Studio, Unity, Odoo, Linux (Kali, Ubuntu), MySQL, PostgreSQL, SQL Server, Git, GitHub, Postman.
Documentation: Technical reports, Microsoft office (Excel, PowerPoint, Word), Markdown documentation.
Database: DDL, DML, transactions, functions, procedures.
Design & Architect: Draw io, adalo, Canva, wireframe, mockup, prototype, UML (Class, ERD, Use Case, Sitemap, Flow charts).
Concepts: SDLC, OS, OOP, SOLID, Design Patterns, Data Structures, Networking, APIs, threads, middle wares, UI/UX, Cloud, AI, Security.

Certifications:

QA (foundation), Full-Stack MERN (foundation), AWS Practitioner (On progress), ASP.NET EF-Core (On progress).

Spoken languages:

Arabic (Native), **English** (Fluent), **French** (Basic).

PROJECTS

Websites:
1. **HOMEIX services (.NET MVC):** Authentication, Authorization (multi roles), Dark & Light mode, CRUD, Search, Cascade, DB first
2. **OBSS ecommerce (.NET MVC):** Authentication, Authorization (multi roles), SignUp, Logout, CRUD, Search, Cascade, DB first.
3. **SSMS management (.NET MVC):** Authentication, Authorization (3 roles), Logout, CRUD, Search, Cascade, DB first.
4. **Let's Debate (Node, Express JS, React):** Authentication, Authorization (2 roles), Logout, CRUD, Search.

AI models & Data analysis:
5. **Fake and real news (Microsoft azure):** Classification & NLP ai model.
6. **Diabetes detection (Python):** Classification ai model, machine learning.
7. **Planes accident analysis (Power BI, DAX, Charts):** Cleaning, Analyzing, visualizing historical data to extract insights.

ERP:
8. **Chocolate Factory (Odoo):** modules like Website, HR, POS, Invoices, Approvals, …etc.

Games:
9. **Go food pizza delivery (Unity):** Desktop, physics, assets, animations, controllers, menu, GDD, music.
10. **Ammar Hero (Unity):** Desktop, physics, assets, animations, controllers, menu, GDD, music.

Consoles:
11. **Number Guessing Game (Ubuntu, C, BASH):** Menu, Files, Processes, Threads, Sockets, System calls, automation shell script.
12. **Dentistry clinic (Java):** Menu, OOP, Design Patterns (Creational, Structural, Behavioral).
